Integrating a Chatbot with Canvas LMS- Managing Student Comms with AI and Machine Learning

— Tony Cannell & Alicia Hadiwidjaja

Integrating a Chatbot with Canvas LMS

Managing Student Comms with AI and Machine Learning

Tony Cannell- Academic Language and Learning Support
Alicia Hadiwidjaja - Webservices
June Cannell- Artwork

WHY CHATBOT?

- Managing Comms on a Large Unit
- Supporting a Large Number of Repeated/Predictable Student requests/enquiries
- Improving the UE of our LMS
- Allocating Support Resources

- Knowledge source: find out which information needs to be provided to the bot so the conversation starts and for Q and A
- Stock phrases: where we can handle general phrases of conversation used more often/preferred
- Conversational memory: When conversing we have to remember the flow + outcomes

Biswas, M. (2018). *Beginning AI Bot Frameworks: Getting Started with Bot Development*. Apress. <https://doi.org/10.1007/978-1-4842-3754-0>

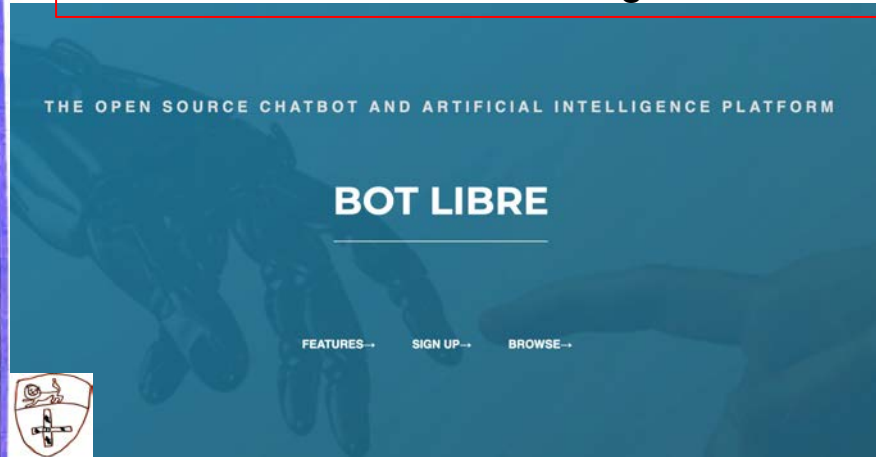

WHAT CHATBOT?

Alternatives like Microsoft Bot Framework, IBM Watson, Amazon Web Services can be expensive, code/coding intensive, heavily branded, opaque as to terms and data usage.

Bot Libre's goal is to foster an open, safe community of artificial intelligent chat bots and their developers.

The Bot Libre platform is an open source project developed by [BotLibre.org](https://botlibre.org). BotLibre.com is a website produced and hosted by [Paphus Solutions Inc.](https://paphus.com) a Canadian company started by former Oracle Software engineer [James Sutherland](https://www.linkedin.com/in/james-sutherland-1b1a3b1/)

HOW CHATBOT?

Admin Console

- Users - Configure who can access, and administer your bot.
- Avatar - Configure your bot's appearance. Choose an animated avatar, or create your own.
- Voice - Configure your bot's language and voice.

☐ 01:39:16.752 **BUSS5100 Q&A:** Hi, This is the place for all your BUSS5100: Communicating in Business questions. </p> <p>You can ask me a question and I'll do my best to answer.

☐ 01:39:47.997 **anonymous:** Where we could find the zoom link?

☐ 01:39:50.571 **BUSS5100 Q&A:** The exam registration link is: <https://forms-business.sydney.edu.au/bus/BUSS5100>

☐ 01:40:23.303 **anonymous:** the workshop zoom link?

t to manage a telegram channel, group, or chat on telegram.

it to send, receive, and reply to Slack messages.

ot to send, receive, and reply to Skype messages.

r bot to send, receive, and reply to WeChat messages.

o send, receive, and reply to Kik messages.

it to manage an email account and send, receive, and reply to emails.

· Allow your bot to send, receive, and reply to SMS messages and response to a voice phone using Interactive Voice Response (IVR).

bot to connect to Google services such as Google Calendar.

low your bot to connect to Wolfram Alpha services.

it to connect to Amazon Alexa.

Allow your bot to connect to Google Assistant.

to chat with others on an IRC chat channel.

bot to run scripts at various time intervals to automate web tasks.

sm the WikiData, Wiktionary, and other websites.

e your bot's knowledge database.

log for errors and debugging info.

bot's statistic and graphs.

AFFORDANCES

Our Bot can...

- Operate as OS agnostic + on Mobile
- Hide service layers within plain conversational techniques.
- A retrieval-based/generative model with Bidirectional Communication flow.
- Run 24/7
- Operate at scale

WHERE CHATBOT?

- A quick run-through
- What is an iframe?
- Iframes are used everywhere
- Security – ‘sandboxing’ the iframe, whitelist only the essential permissions: allow-scripts, allow-popups, allow-forms
- Allow microphone – for speech recognition. It will ask the user first if this is permitted:

MORE CHATBOT

Use chatbot to hold a survey to gather student feedback about the course with interactive elements (buttons, links etc)

Action Research

Send images – e.g. if a student encounters an error and wants to submit a screenshot

Course curation and admin

Deploy chatbot as a mobile Android/iOS app

Assessment task for BIS

Create a live chat that connects with a human operator when needed

Student Support

Utilise deep learning analytics

Data and Analytics assignments

Multiple choice exam marking

And more...

Transformative Learning

Leading in a Post-Crisis World (LPC) is a series of opportunities you can undertake across the course of your degree to empower you to solve future challenges in collaboration with your peers, world-class academics and industry leaders.

<https://www.sydney.edu.au/business/study/student-experience/leading-in-a-post-crisis-world.html>

Interactive Learning Resources Developed for LPC

- 13 Episodes of Interactive material developed
- Presented in a Non-Linear Fashion
- Students engaged with key concepts and then explored their own learning options
- Students could self-select their own study pathways

Celebrating Diversity of Voices

Your own pathway through learning
Introduction to leadership in a post-crisis world
Ever, let's familiarise ourselves with what is at the heart of this unit – Leadership and exactly what a Crisis is. Work through each of the five boxes in a way that is meaningful for you. Content marked with a star icon is essential for progress for the subject – none of them are assessed.

Address critical challenges

Own narrative – to address personal, local and global challenges

Your own pathway through learning

Introduction to leadership in a post-crisis world

First, let's familiarise ourselves with what is at the heart of this unit – **Leadership** and exactly what a **Crisis** is. Work through each of the tiles below in a way that is meaningful for you. Content marked with a star icon is essential for prepare for the tutorial - none of them are assessed.

What is crisis? 	Historical examples of global and local crises 	Historical examples of corporate crises 
Case study on personal crises	What is post-crisis? 	What is leadership? 

How can small and medium enterprises successfully transform?

The community has spoken, and it says the future of small and medium enterprises (SMEs) is one of the issues that matter most. Tell us your ideas for building a successful SME in the future.

How can we build engagement in the post-covid classroom?

The community has spoken and it says that lack of student engagement is one of the issues that matter most. Tell us your ideas for building a new classroom in the future.

How do we innovate the future of manufacturing?

The community has spoken and it says the future of manufacturing is one of the issues that matter most. Tell us your ideas for encouraging innovation in manufacturing in the future.

The Pitch Challenge

CHOOSE YOUR CHALLENGE

The Future Makers program has generated dozens of critical global or local challenges. These have been crowdsourced by your colleagues in the Business School. You can select one of these, or your group can identify any other critical global or local challenges that scare

DEVELOP AN ACTION PLAN

In the template you can download, you need to develop an action plan to address your chosen critical global and local challenge. You will need to describe your challenge, then you will need to describe five actions your group has decided on to address this challenge. The five actions need to be under the following categories (you will need one action from each category)

1. Political action (taken by government)
2. Economic action (taken by government, the financial sector, investors, VC etc.)
3. Commercial action (taken by industry, start-ups, small business etc.)

PRESENT YOUR PITCH

You will need to prepare a slide deck (using the template) to pitch your action plan. The first slide will be a single picture that best represents the challenge you have chosen. You can use a picture of your own, or one from the many free photo archives. You will then have 5 slides of 30 seconds

Leading in a post-crisis world is a transdisciplinary program

Student narratives to show prospective employers how they have addressed global, local and personal challenges.

*The program is a **narrative thread** that helps weave their story as they graduate into an uncertain world*

‘Doing the Pitch was great! It brought us together as friends and the pitch negotiation and team-work processes were great experiences and great for skills development.’ (MCOM student feedback)

Promoting Connections

Supports Reflection & Feedback

Supporting students to gain feedback from their peers, colleagues and leading industry representatives to engage in critical reflections on their own practice and growth

Student feedback

Student Completion Survey

- *"Relevant for today's crisis and world"*
- *"The best aspect of this unit is the atmosphere in the class, with all the students actively discussing and expressing their opinions"*
- *"The structure of the lectures is truly unique I have found them to be very engaging and allows students to engage with the content at their own pace"*
- *"The way the unit embraces collaborative peer learning is very effective and encourages students to challenge and build on the insights of others"*

Lessons Learnt

Flexible and adaptable approach due to the continuing Covid pandemic

Support and training to learn new **technology** and learning environments (hybrid learning) to support students who were also learning new technology and ways of learning

Students as Partners in Learning was a key theme that emerged for promoting connectedness and transformative learning opportunities

Authentic experiences underpinned by and informed by transformative teaching and learning frameworks such as Connected Learning at Scale (Bryant, 2019); Community of Inquiry (Garrison, 2000; Armellini et al. 2016; Fiock 2020) Experiential Learning (Kolb, 1984)

Peer Support and Feeding forward to support reflective skills

Promoting connections through developing a Community of Inquiry
